(c) Effective July 1, 2009, a state agency or political subdivision of the state that installs, owns, operates, or maintains a traffic-control signal light located in an intersection that employs a surveillance camera for the enforcement or monitoring of traffic violations shall ensure that:

(1) The surveillance camera does not identify as a violation of § 55-8-110(a)(3), or any municipal law or ordinance that mirrors, substantially duplicates or incorporates by cross-reference the language of such provision, any vehicle which legally entered the intersection during the green or yellow intervals in accordance with § 55-8-110(a)(1) and (2); and

(2) Appropriate signage is located not less than five hundred feet (500') but not more than one thousand feet (1,000') in advance of the intersection informing drivers as to the presence of surveillance cameras at the approaching intersection.
